MEMORANDUM FOR THE RECORD

SUBJECT: Fraser Committee Request for Declassification
of State Department Documents Which Contain
Agency Material

1. The Fraser Committee has requested that the State Department declassify two documents containing Agency provided information and so informed the Agency in a 30 January 1978 memorandum. As a result, Mr. Blaine Porter, Korea Desk, State Department, visited the Agency on 6 February 1978 to discuss the caveats surrounding the Agency material.

2. Mr. Porter and the undersigned reviewed the documents in question, a 2 June 1971 memorandum from U. Alexis Johnson to Attorney General Mitchell and a 24 August 1966 airgram, No. A-69, enclosure two (2). This material was previously reviewed for declassification following a 6 October 1977 Agency - Fraser Committee Representative meeting. Certain deletions were made from the Agency material in the aforementioned documents. The resulting agreed upon version of these documents will be declassified for the Fraser Committee by State Department.
